Overall evaluation

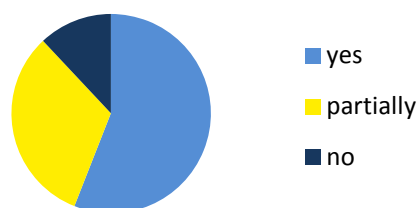

Matters of matter

Future implementation and recommendation to colleagues

I will implement the topic "Matters of matter" in my own lesson

I will recommend the topic "Matters of matter" to my colleagues

Science on Stage festival 2017 Workshop Evaluation

Comments

- Fantastic!
- Sei eccellente. Bravissimo
- Thank you, will keep in touch

Science on Stage Europe's aim is to promote best practice teaching ideas from teachers for teachers across Europe. To constantly improve Science on Stage workshops and teacher trainings we ask all participants to take part in voluntary evaluations.

The workshop "MoM - Matters of Matter: Future Materials in Science Education" was one of 18 teacher workshops during the Science on Stage festival 2017 in Debrecen, Hungary. Altogether 342 workshop participants (participants were able to attend more than one workshop) took part in the evaluation.
